RCWP

*Remote Controlled Weapon
Platform with Tracking System*

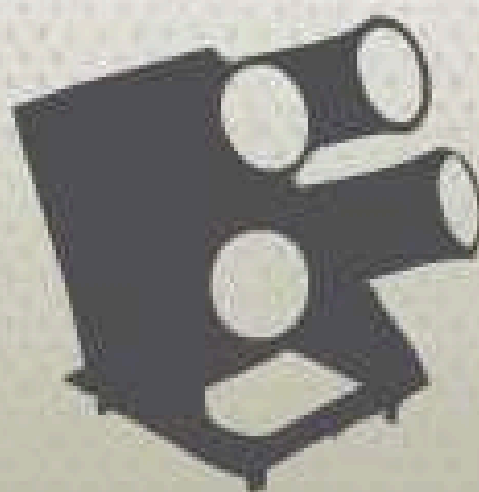

Remote Control Weapon Platform (RCWP) is a tracked armoured platform that can easily be configured according to different requirements and having all functions able to be managed remotely. RCWP has a reconnaissance and surveillance feature with the integrated MAST and thermal camera, motion detection cameras and sensors. Bulletproof shield feature allows the vehicle to be used for rescue operations and transitions in combat zones. RCWP is able to carry military ammunition and equipment with a payload capacity of 2 tons. Electric and hybrid models of the platform are also existing.

SERVICE INDUSTRY VEHICLES

INTRODUCTION

Nation Renaissance Company is a leading provider of cutting-edge military and defense vehicles and , dedicated to delivering state-of-the-art solutions for the most challenging operational requirements. With a strong focus on innovation, reliability, and superior performance, we offer a comprehensive range of armored vehicles and specialized platforms designed to meet the demands of modern warfare and security challenges.

Headquartered in Iraq, Nation Renaissance has established a strong presence in key locations including Baghdad, Erbil, Turkey, and Dubai, among others. With an extensive distribution network, we have successfully supplied our exceptional products and services to clients in these regions and beyond.
